

Adoption Agreement

- When adopting a rescue animal from Pawz for Thought, you will allow at least a 2 week period to ensure they are able to settle in and get used to their new home. If the animal does have to return back to Pawz, please be aware the donation is non-refundable.
- If, for any reason, your situation changes and you are no longer able to care for your adoptee, the animal then comes back to the care of Pawz for Thought and please be aware the microchip is also batched to the charity.
- You agree to be a responsible pet owner and carry out the vaccinations at your own vet at your own expense. Please be aware the donation includes neutering, microchipping and worm & flea treatments and as we are a rescue centre we do not usually have a medical history for the animal.
- When taking out the optional 4 weeks free insurance cover with Petplan; in cases of any medical issues, during the **first two weeks you must** contact Pawz for Thought, so we can take the cat to our own vets at our own cost. After two weeks you then contact Petplan; contact details for Petplan will be provided at the time of adoption.
- We have no paid staff at Pawz for Thought and are all volunteers around our fulltime jobs, therefore we require all potential adoptees to be able to travel to the location of the animal, be that the main site or the fosterer's home.
- We complete a home check or can carry out a check through your vet if this is more suitable due to distance or other extenuating circumstances. Finally the adoption paperwork is completed, including this form to be signed by you.

I..... agree to the above conditions so the process for adoption can begin.
